

**Assurance for Domestic Violence Consultation/Prevention  
and NRCBI Participation**

Each awardee agrees to accept assistance from one or more domestic violence experts, assigned by the National Fatherhood Initiative (NFI), relative to developing their capacity-building initiative action plan. We anticipate that all plans will include a program or service directly addressing issues of domestic violence prevention.

Please affix signatures below indicating that you agree to the terms stated with this Assurance for Domestic Violence Consultation and Prevention, and that, if awarded a grant, you agree to use these funds solely for approved capacity-building activities that address responsible fatherhood in terms of leadership development, program development, organizational development and connections with the wider community.
